

CIRET/KOF/OECD/INSEE Workshop

with a special focus on

The use of economic tendency surveys to assess potential growth and the position of economies in the business cycle

Boulogne-Billancourt (France) - November 13th-14th, 2019

Call for Papers

Timely and accurate estimates of the productive capacity of economies and their position in the business cycle are crucial for monetary policy, fiscal surveillance, as well as for choosing the appropriate mix of stabilisation and structural policies.

In cooperation with KOF/ETH Zurich, OECD and INSEE, CIRET will organise a **1 ½-day workshop** on the

**measurement of output gap
potential growth and productivity**

with a focus on

how economic tendency surveys can improve the accuracy of the corresponding estimates in real time

Submissions on this topic or related to the use of economic tendency surveys in general are welcome.

This workshop will be held at the OECD premises in Boulogne-Billancourt, France, on November 13th-14th, 2019.

Deadline for paper submissions is **July 15th, 2019**. Submissions should be provided in MS Word or PDF format to papers@ciret.org. Authors will receive a notification in September regarding the acceptance of their work.

Authors are also kindly invited to **submit** their ready-to-publish papers to the **CIRET & Springer [Journal of Business Cycle Research](#)** (JBCY). Submissions accepted by the Editor-in-Chief will be peer-reviewed by two referees and published in a **Special Issue** of the Journal.

The **registration fee** for the workshop is € 100. A dinner, two lunches and coffee breaks are covered by this fee. Participants are invited to make their own arrangements regarding accommodation.

Further information on the workshop will be made available on <https://www.ciret.org/workshops/>.

Questions on the scientific content of the workshop or organisational aspects can be addressed to info@ciret.org and CIRET2019@oecd.org.
